

MYAX: Own the Future of Digital Engagement

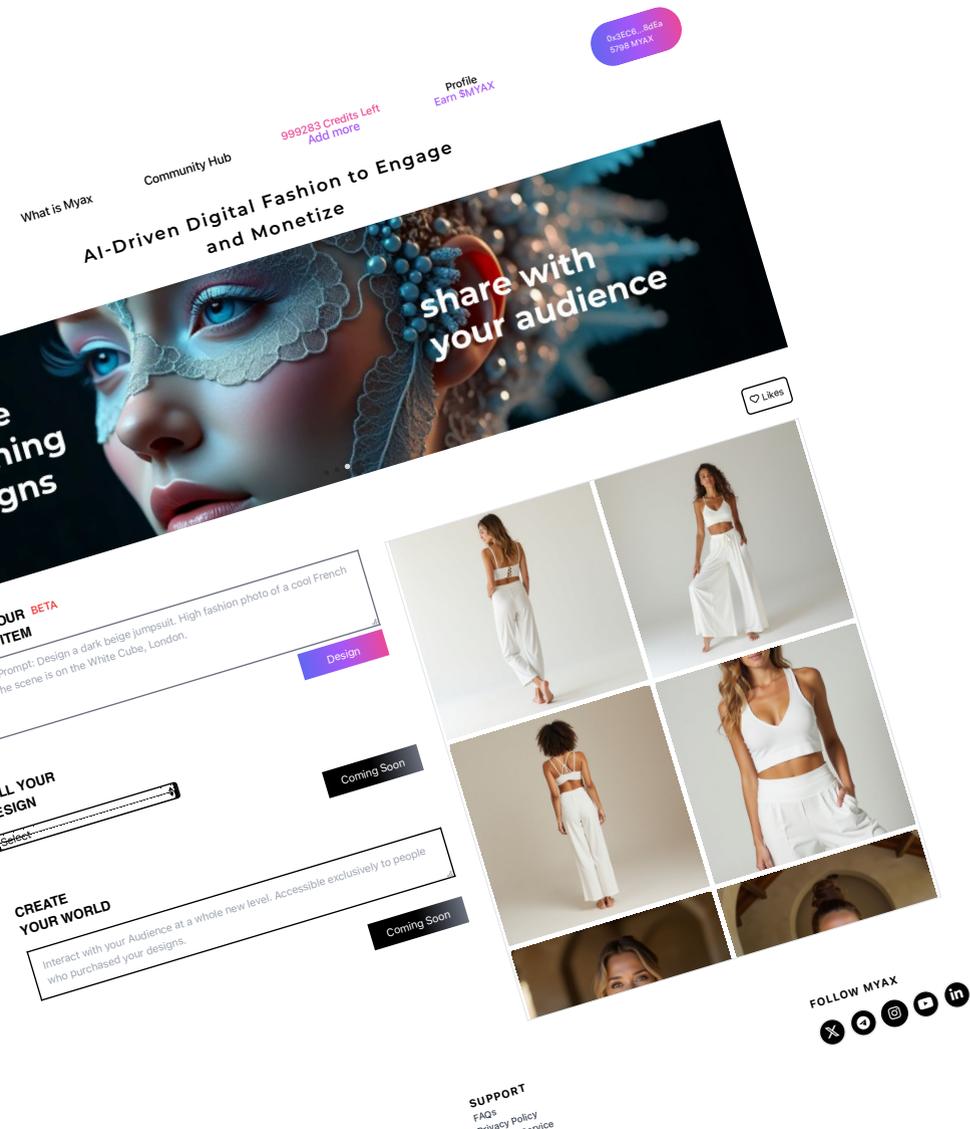

AI Twins • NFT Subscriptions • Gamified Creator Rooms

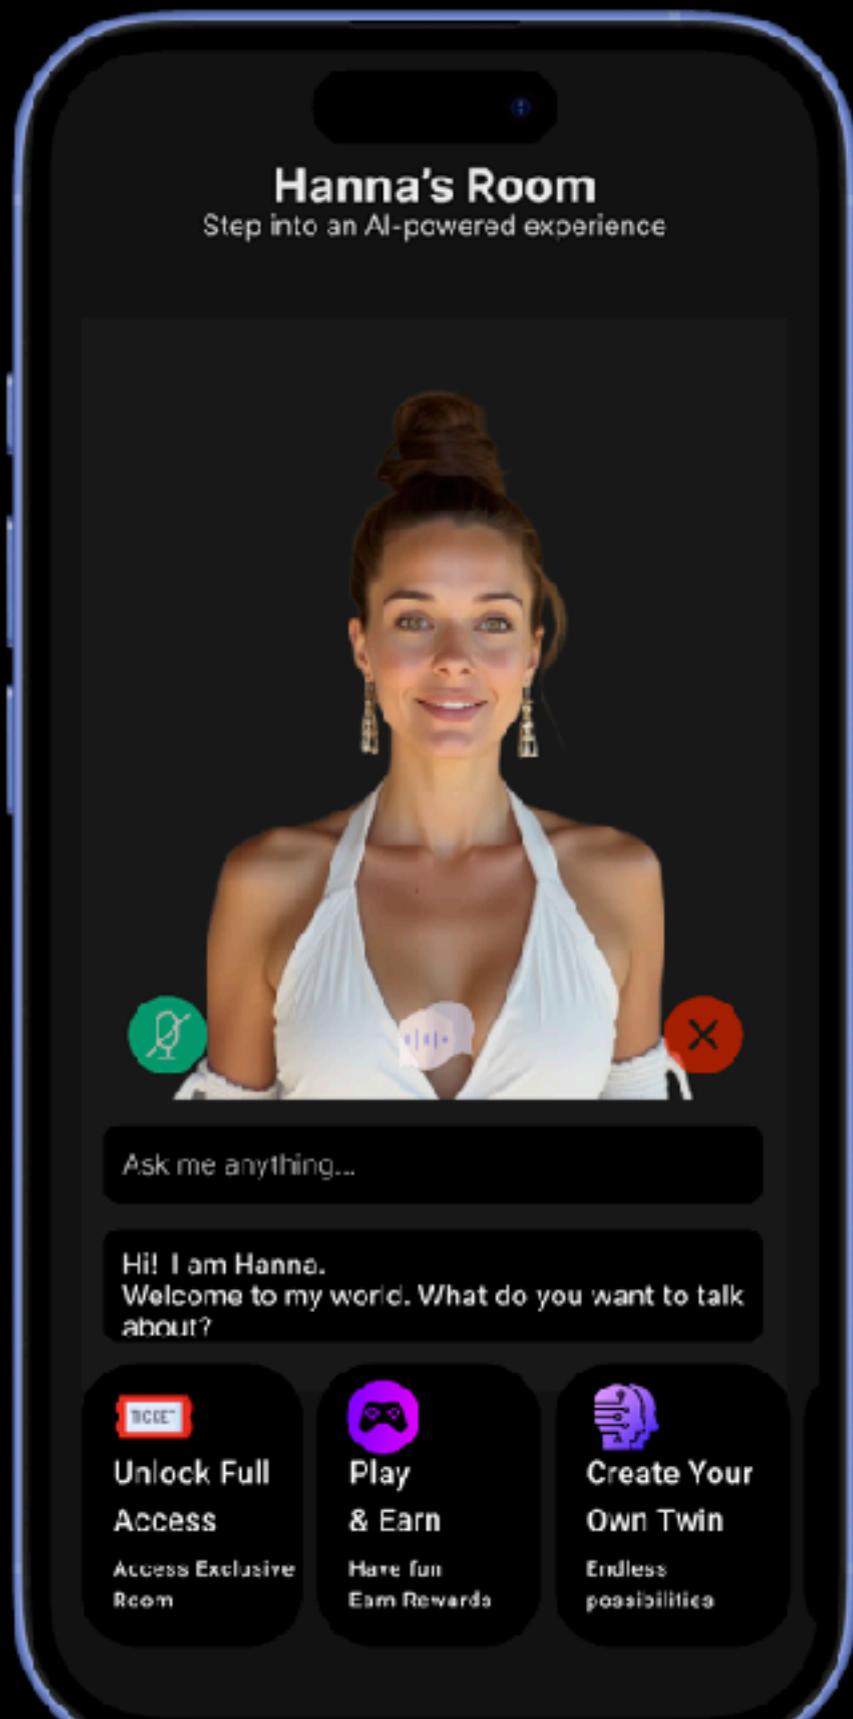

Backed by Polygon, Crossmint, ElizaOS
Listing Partners: Gate and MEXC

Content Creators Are Suffering

- 50% of revenue taken by platforms
- 198M of 200M creators earn <\$1K/year
- Fans stay passive

Our Vision & Core Solution:

AI Twins

24/7 personalized digital versions of creators that talk, react, and engage fans in private rooms.

Transferable NFT Subscriptions

Tradeable, utility-rich passes to exclusive creator experiences, turning fans into stakeholders.

How MYAX Works

1

Influencers create their AI Twin
Automated, personal, and always-on

2

Fans access exclusive content
via **NFT-based transferable subscriptions**

3

Engagement & Revenue
Fans chat, engage in games, virtual try-ons, and
unlock premium content while recurring
payments flow transparently on-chain.

Key Product Differentiators

Always-On AI Twins – Build lasting loyalty with non-stop interaction

NFT Subscriptions – Stake, trade, and invest in fan access

On Polygon + IPFS – Low cost, permanent storage

Gamified Economy – Avatar-to-avatar games & fashion try-ons

Market Opportunity

\$250B+ Creator Economy

The global creator economy market is expanding rapidly, with massive monetization potential.

200M Creators

Only 1% currently earn sustainably, presenting a huge market inefficiency to capitalize on.

Gen Z Demands

Young audiences seek community, ownership, and personal identity through digital experiences.

4B social followers

Fashion, gaming, and K-pop drive the most dynamic growth and fan engagement.

Traction & Momentum

- ✓ 16K+ token holders
- ✓ 40K+ active community
- ✓ 30K+ AI fashion designs
- ✓ Backed by Polygon, Crossmint, ElizaOS
- ✓ MEXC and Gate listing confirmed

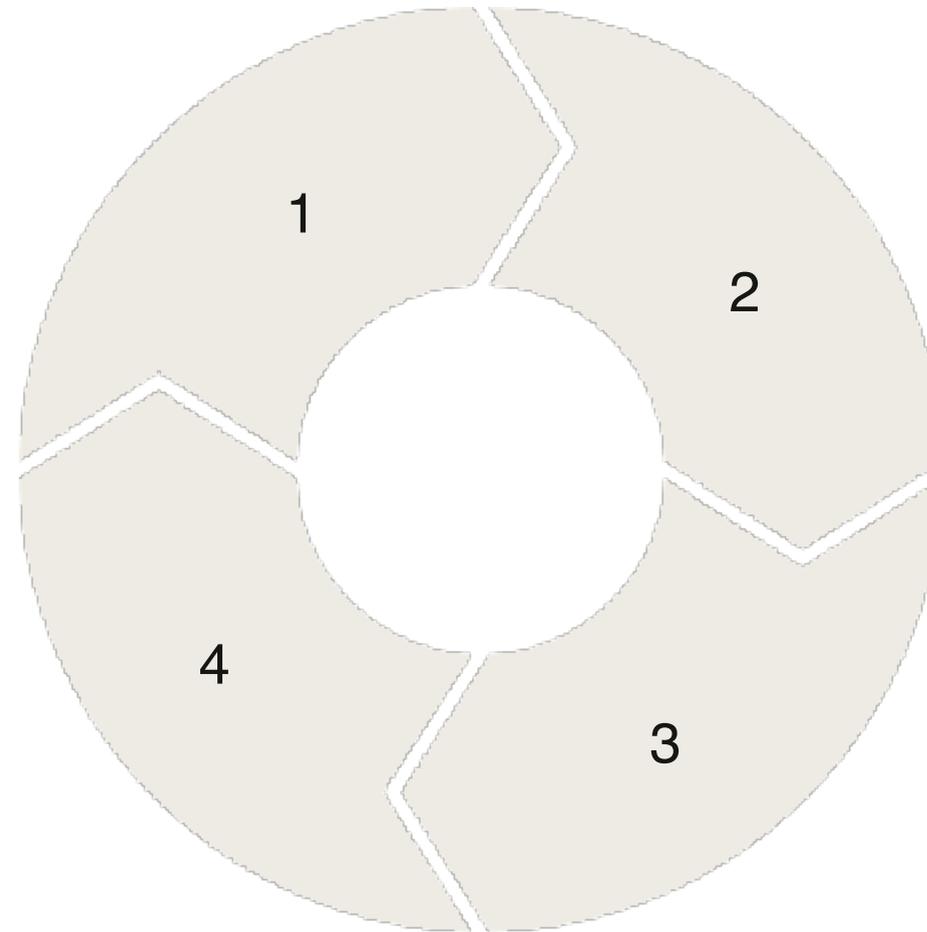

MYAX Economic Flywheel: Burning, Staking & Sales in Sync

Staking \$MYAX Tokens

Incentivizes token holders, reducing circulating supply & boosting token value.

Higher Valuation

Increases influencer adoption.

NFT Subscription Staking

Fans lock their subscriptions (NFTs) to earn rewards, boosting demand for influencer room access.

Sales-Driven Burning

20% of every NFT subscription sale burns, ensuring **continuous deflation**.

Positive Feedback Loop:

Stake → Buy NFTs → Burn → Scarcity → Value ↑ → Adoption ↑

Business Model & Revenue Streams

For Creators

Recurring revenue via NFT sales (80% rev share)

For Fans

Tradeable access, reward staking

For Brands

Branded rooms, AI concierge, and game integrations

Roadmap 2024–2025

1

Q3 2025

Launch NFT Storefront and comprehensive creator tools for seamless adoption.

2

Q4 2025

Expand AI Twin Rooms to support 30,000 creators, scaling engagement exponentially.

3

Q1 2026

Introduce staking, loyalty rewards, and integrated in-room commerce to enhance monetization.

4

Q3 2026+

Develop avatar-to-avatar gamification and launch B2B AI concierge tools for enterprise expansion.

Go-To-Market Strategy

Scale Creator Base

Grow from 100 to 30,000 creators in high-growth verticals like fashion, gaming, and K-pop.

Walletless Onboarding

Utilize Crossmint social login to reduce friction and enable mass user acquisition.

Referral Flywheel

Leverage share-and-earn programs to exponentially boost user base growth.

Influencer Challenges

Host design contests led by influencers to drive engagement and trends.

Customer acquisition costs are kept low at \$2, subsidized by grants, ensuring efficient scalable growth.

Investment Opportunity

We are raising **\$1.5 million** to scale to **30,000 AI-powered creators** and facilitate over **1 million fan interactions**. This round will accelerate the launch of key Web3 monetization features, including advanced staking, loyalty tiers, and NFT commerce tools.

Private Round Valuation

\$15M FDV

50% Discount vs. Public Sale (\$30M listing valuation)

Use of Funds

Platform expansion & feature development (AI Rooms, Staking, NFT Subs Staking)

Creator onboarding & global user acquisition

Liquidity provision for centralized exchange listings

Target Milestones

Reach \$10M GMV within the first year post-listing

Finalize Tier 1/Tier 2 listings

Build a scalable onchain fan economy with real utility and deflation

Your early partnership positions you at the forefront of the AI x Creator Economy revolution
